Dear KPMG

Hi

I hope you're doing well! I'm interested in the role you posted: Data science & Analyst. Based on my experience as Prospective Data Engineer & Data Analyst, I have preferred skills like | Python | SQL | Azure Data Factory | Azure Databricks | Apache spark | Power BI | I believe I could be a good fit.

Are you open to a quick chat to discuss the position? I'd love to learn more about it, and share more about my own qualifications. I look forward to hearing from you.

Sincerely,

Saisuhas Kashivojjala
